ENGINEERING WORKSHOP

YEAR 1-6

Our engineering workshops are led by real engineers from various fields, with projects designed by a senior team holding master's degrees and reviewed by Ph.D. professors. Students engage in hands-on projects, moving through the entire process—from concept to design, using various tools to bring their ideas to life. Without ready-made kits, students think creatively, solve problems, and deepen their understanding of engineering. Each session features unique projects, helping students learn mechanics, build circuits, and understand forces while developing key skills in measurement, safe tool use, planning, and data interpretation. And, of course, they'll have fun!
