GAME & APP DESIGN

YEAR 3-6

This term the participants work through comprehending Game Design as they recreate a variety of timeless arcade games. They also get an exposure to app design as they create simple apps. The emphasis goes beyond simple replication, as they delve into the intricate elements that constitute engaging gameplay. This instills a methodology for designing their own game creations and apps from scratch. Through this immersive process, students are not only exposed to coding but also encouraged to think innovatively, approach challenges systematically, and engage in collaborative problem-solving. This course imparts valuable coding skills and nurtures creativity in the participants and sets them off on an exciting journey of game and app design!
