16. Responsibilities and Roles	8
17. Learning Environments and Resources	9
18. Monitoring and Review	9

Rationale:

Student's attainment and progress is closely monitored at Safa Community School in order to provide the best possible opportunities and highest levels of support for all children. All assessment activities aim to ensure that learners are able to make better than expected progress in their learning whilst taking into account the needs of individual children.

Aims:

- to enable our learners to demonstrate what they know, understand and what they can do in their work
- to allow teaching teams to plan work that accurately reflects the needs of each child
- to help our learners understand what next steps they need to take improve their work
- to report regular information to parents that enables them to support their child's learning
- to contribute towards accountability data

Aims of the new National Curriculum 2014:

Following the announcement, by the Department for Education, of the removal of levels for the attainment and progress of children (2013) and the relaxation of restrictions on centrally led reporting requirements (Department for Education and Gibb, 2015 and Ofsted, 2015), schools have now been given the opportunity to conduct more '*assessment of the right kind*', to offer task specific, personalised feedback and to become '*Assessment Professionals*' by creating an assessment system that supports the learning of the individual children in their school. (Tim Oates, Chair of the expert panel for NC review).

Ofsted has stated the following:

- Ofsted recognises that marking and feedback to pupils, both written and oral, are important aspects of assessment. However, Ofsted does not expect to see any specific frequency, type or volume of marking and feedback; these are for the school to decide through its assessment policy. Marking and feedback should be consistent with that policy, which may cater for different subjects and different age groups of pupils in different ways, in order to be effective and efficient in promoting learning.
- Ofsted does not expect performance - and pupil-tracking data to be presented in a particular format. Such data should be provided to inspectors in the format that the school would ordinarily use to track and monitor the progress of pupils in that school (Ofsted inspections – clarification for schools, March 2015, No. 140169)

SCS Alignment with the UAE National Agenda Parameter:

In line with the UAE National Agenda's aim to improve the quality of education across the country, Safa Community School participates in international and external benchmarking assessments on a regular basis. All students from Years 4-6 undertake the '*GL Cognitive Ability Test (CAT4)*'. This allows teachers to address patterns and adapt teaching methods to suit individual or group needs, ensuring feedback is appropriate and targets are achievable. As well as this, '*Progress Test Series*' is used annually in English, Maths (Year 2-Year 6) and Science (Year 3 - Year 6) to deliver a detailed, accurate, and clear picture of each pupil's attainment and progress. Additionally Years 2 - 6 complete Form A, B and C of the NGRT as a National Benchmark reading assessment. Furthermore, Year 4 to Year 6 students participate in the '*Arabic Benchmark Testing (ABT)*' which allows schools to compare student performance internationally, between year groups and overtime. In line with the UAE's target to be ranked among the top 15 countries in the world for TIMSS our Year 5 cohort from 2019 completed TIMSS and gained scores of 596 and 593 in mathematics and science respectively and gained targets of 591 - 601 and 598 - 608 for 2023 TIMSS. This enables us to compare ourselves with other schools within UAE as well as across the world. In our most recent PIRLS

Assessment at Safa Community School

Staff at Safa Community School have worked together to develop an assessment system that takes into account the criteria of the new National Curriculum, whilst providing a greater focus on mastery. Assessment takes into account children's strengths as well as areas where they need support. It consists mainly of formative strategies and a range of recording methods, as detailed below.

Foundation Stage

Foundation Stage teachers will upload students' learning to Seesaw where they will use Seesaw Skills as a formative assessment tool, assessing against the new curriculum objectives. Families have access to all learning that is uploaded on to Seesaw. The Foundation Stage uses the gap analysis from Seesaw Skills to inform their summative judgement. Summative data is collected 3 times a year and entered into our data tracking system which is iTrack. This information is based on three categories - emerging, developing or secure within the appropriate '*Age and Stage*' band for each individual child which is inline with the new Early Years Foundations Stage Curriculum.

Year 1 and 2 Phonics Check

All children in Year 1 and 2 will participate in a National Curriculum Phonics screening check. This is designed to confirm whether pupils have learnt phonic decoding to an appropriate standard. It will identify pupils who need extra help to improve their decoding skills. The check consists of 20 real words and 20 pseudo-words that a pupil reads aloud to the teacher. This assessment will be administered by the Year 1 teacher.

Feedback and Assessment

We aim to provide valuable feedback to children through marking so that they have specific advice about improvements to their work. Children are given Designated Independent Reflection Time (DIRT) to read and review their work following marking and reflect regularly on their learning. Children in older year groups are encouraged to self-assess their work and to identify next steps in their learning. This is done with the support of the class teacher. See separate Feedback Policy for more information.

9 Formative Assessment

9.1 Seesaw Skills in EYFS

Seesaw skills are used within the Early Years foundation Stage only as a form of formative assessment where the learning uploaded on to Seesaw is assessed against the new EYFS curriculum objectives.

9.2 Rationale for using Seesaw Skills at Safa Community School

By using Seesaw Skills in EYFS, we assess children so that we can understand where gaps in their knowledge are starting to form. We record this information so that we can use it to inform the lesson planning process.

We believe that all children should be given the opportunity to achieve mastery in the curriculum objectives we have designed for our school (based on the National Curriculum 2014).

When using Seesaw Skills, based on the evidence observed in the lesson and work uploaded on to Seesaw, teachers need to record where a child is when working on a specific learning objective. They use the following with the structure of Solo Taxonomy to support them when making a judgement:

Leave blank - if there has been no understanding demonstrated.

- 1 - The pupil showed only some understanding of the learning objective.
- 2 - The objective has been met at an expected standard.
- 3 - The pupil met the objective and showed depth in the form of reasoning.
- 4 - The objective has been met at a mastery level.

9.3 Century Tech

Century Tech is used in KS2 as a formative assessment tool. This is a platform that provides short lessons (nuggets) on all of the National Curriculum objectives and then a short quiz at the end of it. The teachers are provided with average scores and areas of strengths and development for individual students, the whole class and the whole year group. This information is then used to identify curriculum modifications and targeted interventions.

10 Summative Assessment

10.1 Moderation Grids:

Teachers complete moderation grids for core subjects by inputting the children assessment results against a scale that is inline with the school's six point scale. The teachers then make a moderated teacher judgement using a triangulation of evidence for maths, reading, writing, science and Social Studies.

10.2 iTrack:

iTrack is used as a summative assessment tool to collect data at 3 different entry points: baseline, mid-year and end of Term 3.

After using the moderation grids the teachers then enter their moderated judgement for each subject against our six point scale which changes depending on the assessment point of the year. See below:

SCS Primary Assessment Scale						
Baseline Assessment Scale						
Emerging Below POS (1 for the year)	Emerging	Expected	Expected	Expected	Expected	Expected
Mid-Year Assessment Scale						
Emerging Below POS	Emerging	Expected	Expected	Expected	Expected	Expected
End of Year Assessment Scale						
Emerging Below POS	Emerging	Expected	Expected	Expected	Expected	Expected

If a student at the end of the year is working well above and at an exceptional level (MAGT) then put them as Above POS.

The data is then analysed by year groups, Inclusion and our curriculum team against our 6 point scale which is categorised as Emerging, Expected and Exceeding for the point of year the children are being assessed. This information is then used to inform planning, curriculum modifications and interventions.

Within Safa Community School we report assessments to *governors* at the end of every term.

10.3 Pupil Engagement

Engaging pupils in their own assessment is a core philosophy of the Learning Ladders approach. The purpose of this approach is to have our pupils be able to articulate what they were 'learning' and not just what they were 'doing'. Feedback and feed forward is a really important part of knowing what you've done well at and what you need to do next to succeed.

10.4 Parental Engagement & Support

Parents get a deep insight into their students' academic strengths and areas of development through access to online tools such as Seesaw where they can see the students' favourite piece of work uploaded to their Journal. Thenal formative assessment tools such as Century Tech where they have a parent login and can see the students scores and areas of strength, development and areas where they can be challenged further.

Parents are provided with assessment webinars which explain how we assess our students here at SCS as well as providing them information of how the assessment information is then used to inform planning and targeted interventions.

11. Parental Engagement/Pupil Parent Conferencing

Parents have two 'planned' for pupil parent meetings where they meet to discuss their child's progress and attainment. However, due to SCS open door policies, meetings can be arranged at any time throughout the year.

The school constantly works on improving communication and building a partnership, so regular parental engagement activities take place throughout the school year.

12. Reporting to Parents

Parents receive two formal school reports, at the end of Term 1, and the end of the Academic Year in Term 3. These reports share attainment levels with their parents and the scores of any external assessments (Years 4 - 6).

13. Inclusion

Safa Community is an inclusive school and we work hard to meet the needs of all our children. Class teachers are responsible and accountable for the progress and development of all pupils in their class. High quality teaching is available to all children, including those with additional needs. We work hard as a school to ensure that all additional support in the classroom is deployed effectively. Where a child is not making the expected progress, the class teacher will work alongside the *Inclusion Leader*, parents and external agencies (where appropriate) to plan tailored support. We follow the Assess, Plan, Do, Review cycle to ensure all children are monitored closely and make progress. We use Individual Learning plans, where appropriate, which are reviewed with the child and parents termly. Nadine Hutchinson, Inclusion Leader, is available to provide advice to staff and families. We also maintain a list of focus children who we monitor closely following any issues or concerns alerted by staff or parents. We do not label any child by so-called 'ability'. All children are encouraged to achieve their best and become confident individuals living fulfilling lives. See separate SEND policy for more information.

14. Responsibilities and Roles

Who is responsible for Assessment?

The Deputy Head Curriculum and Assessment with the support of the Head of Primary and School Principal

Key responsibilities of this role are:

- To organise and co-lead training, support and advice on the management and implementation of the assessment policy and practice throughout the school.
- To review assessment data for the whole of primary, analyse data at pupil, cohort and whole school level to identify, where necessary, plans to put in place individual pupil programmes.
- To analyse and interpret relevant national, local and school assessment data, plus research and inspection evidence, to inform policies, practices, expectations, targets and teaching methods.
- To assist the Head of Primary in monitoring and evaluating how the school compares with other schools.
- To assist the Head of Primary in reviewing, implementing and drafting the School Development Plan focusing on issues identified when evaluating the school's data.
- To monitor pupil progress on a termly basis from teachers' on going assessments against key learning objectives and provide the Head of Primary with summary information.
- To assist the Head of Primary in providing short, medium and long term plans for the development and resourcing of individual, cohort and whole school level.

15. Learning Environments and Resources

As part of our learning environment guidelines and our approach to learning, all learning environments should promote and support innovative thinking. The importance of using the digital world as a 5th wall in the classroom is a specific area of focus. Teaching staff should be strategic in how best to utilise the space and resources available to them at SCS. With regards to leadership, they will constantly be looking at innovative designs and equipment that can be used to support the improvement of learning outcomes.

16. Monitoring and Review

Monitoring and review takes place on a regular basis in accordance with the School Development Plan and Assessment outcomes.
