#### 1. Rationale

At SCS we believe in the importance of supporting, developing and growing our greatest resource which is our teachers, to improve the learning outcomes and experiences for students. As a learning community, the school is responsible for providing support for staff and the school community to continually develop their knowledge, skills, leadership capabilities and career opportunities through a comprehensive professional learning and development programme.

Teachers are encouraged and expected to take responsibility for the learning by reflecting on performance, identifying development needs, planning, and engaging in professional growth. Teachers are encouraged to attend webinars and reflect on best practices across the globe. Due to Covid 19, we have utilised innovative methods providing our staff with vital professional development opportunities.

# 2. <u>Aims</u>

- To improve student learning outcomes by planning for staff professional learning.
- To promote and support a performance and development culture.
- To encourage all staff to collaboratively develop knowledge and teaching skills that are aligned to the School Improvement Plan and Vision.
- To ensure that teachers are prepared and knowledgeable on Health and Safety procedures.
- To provide opportunities for professional learning through mentoring, coaching, feedback and action research.
- To provide professional learning and development that supports personal goals, well being and career advancement.
- To support professional learning for leadership and succession planning.
- To support the UAE's initiatives through the professional growth of staff.
- To provide the wider school community with information and training sessions to strengthen home and school partnerships.

#### 3. Process

- Focus on improving student outcomes and student's voice
- Focus on, and be embedded in, teacher practice.
- Collaborate virtually and/or in socially distanced areas.
- Be supported by internal and external personnel, research and effective learning and teaching.
- Be collaborative, involving reflection and feedback.
- Be ongoing, supported and fully integrated into the culture and operations of the school.

Professional learning should include planned participation in individual, team, cross-team and whole school learning and improvement activities. Teams should also collaborate within local cluster groups.
