1.0 Definition of Leadership:

"Leadership is the capacity to influence others through inspiration motivated by passion, generated by vision, produced by a conviction, ignited by a purpose."

Myles Munroe

Aims of the Student Leadership Policy:

- To provide students with responsibility opportunities
- To provide equal opportunity among students
- To ensure students can cooperate with each other
- To give pupils representation in the decision making process
- To ensure that students work together to make fair decisions

Leadership Goals:

- To enable students to impact the wider school community in a positive way
- To promote students sense of empathy towards others and pride in themselves at school
- To encourage student voice in the wider school decision making process
- To empower students to create change

Values:

Purposeful Learning Experiences, Respectful Independent Thinkers, Personalised Academic Success, Caring Family Culture. (See appendix A for school values)

Another purpose of this policy is to highlight that an individual does not need a title in order to lead. Students are encouraged to lead from within learning situations in the classroom.

"People who lead - whether or not they have a title - strive to make things better for those around them"

Mark Sanborn

For Leadership to be worthwhile, students must feel valued and believe they can create positive change in the school community. For this to happen they must feel supported by the teaching team and the student body.

2.4 Mentoring System

Mentoring is the influence, guidance, or direction given by a mentor. In a school setting, we will always encourage students to support their peers in their personal or academic development. Mentoring takes place throughout the school involving a range of students from different phases. Being a mentor serves as a way to give back and is an important development and learning experience. Teaching others is the best way to learn yourself. In the same way, mentors become more competent as leaders and communicators as they guide and help rising talent.

2.5 Leadership in Learning

It is important that students know that they have the ability to lead others whether they have a title or not. At SCS we encourage collaboration and communication among our students in lessons and where possible, we ask students to take on leadership roles within the classroom to help improve the learning of others. The use of learning gears promotes collective responsibility in the classroom and provides the students with the opportunity to be self managers and be leaders when working as part of a team.

The integration of Oracy skills gives the students the chance to take on a variety of roles within a group context and share the leadership responsibilities.

Teachers will provide students with the opportunity to be learning coaches particularly in the primary phase. Secondary students will have leadership opportunities as mentors to younger students helping to set clear targets and goals that are measurable over a period of time.

3.0 Implementation:

Note: the processes below may be altered/ adjusted depending on the number of applicants for each position.

6. Elections are conducted, the boy and girl with the most votes is elected as the Head Boy and Head Girl.
7. The Head Boy and Head Girl will hold that role into the next academic year when the same process will occur again.

3.2 House Leaders

3.3 All Other Leaders

1. Applications are written and submitted by the due date.
2. Dependent on the leadership group, applicants will be interviewed by a teacher who oversees the position that has been applied for (eg. The Music teacher interviews the applicants for Music Leader etc.)
3. The teacher decides on the leader/s based on the application or the interview, and general observations and feedback from class teachers.

3.4 Student Voice

At SCS we aim to provide as much opportunity for students to give their input to what happens within the school and classroom. Our desire is for students to know that their expertise, opinions and ideas are valued in all aspects of school life. Student voice can come from a number of different levels, whether that be a small one to one conversation, group discussion or student leadership meetings.

The school will have a collective group of students that cater to a range of different leadership areas that form part of the school council across Primary and Secondary phases of the school. These students will have the opportunity to apply for these roles. The captains, along with teachers, will decide upon those selected.

Student Leadership groups will meet on a regular basis and be communicated with via Seesaw (primary) and emails (secondary) to decide on any actions or issues that need attention around the school. Lead teachers and at times Head Boy/ Girl will be responsible for chairing these meetings/ interactions for both Primary and Secondary. Minutes will be taken for any in person meetings. It is important that any points for action are implemented by students and they have impact around the school. The lead teacher for the leadership groups will be responsible to ensure that this impact is seen.
